

DIGITAL ON DEMAND

2025 BLANKS CATALOG

No Pre-Treatment Technology: EVERCoat & OMNICOat

We offer various innovative coatings for metal drinkware blanks, enabling printing without the need for prior priming and achieving exceptionally vibrant Long-lasting colors.

Variable pricing based on quantity ordered

Purpose-Built Efficiency: Developed in late 2022, **Ever-Coat** revolutionized printing on powder-coated tumblers by removing the need for flaming or wiping.

Time-Saving Design: While jettable primer is required, **Ever-Coat** shortens the process, allowing teams to grab and print.

Proven Success: Trusted by companies to simplify production, Ever-Coat is the go-to solution for efficient, durable printing.

Forefront of Innovation: The latest product from DOD, **Omni-Coat** removes the priming process altogether drastically shortening production while maintaining lasting durability all while reducing cost.
